State of Washington 67th Legislature 2021 Regular Session

By Representatives Gregerson, Barkis, Fitzgibbon, Chambers, Peterson, Davis, Gilday, Bateman, Callan, Eslick, Young, Harris-Talley, and Macri

Read first time 01/21/21. Referred to Committee on Local Government.

AN ACT Relating to accessory dwelling units; amending RCW 36.70A.696 and 43.21C.495; adding new sections to chapter 36.70A RCW; adding new sections to chapter 82.14 RCW; creating a new section; and repealing RCW 35.63.210, 35A.63.230, 36.70A.400, 36.70.677, and 43.63A.215.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 <u>NEW SECTION.</u> Sec. 1. (1) The legislature makes the following 8 findings:

9 (a) Washington state is experiencing a housing affordability 10 crisis. Many communities across the state are in need of more housing 11 for renters across the income spectrum.

12 (b) Many cities dedicate the majority of residentially zoned land 13 to single-detached houses that are increasingly financially out of 14 reach for many households. Due to their smaller size, accessory 15 dwelling units can provide a more affordable housing option in those 16 single-family zones.

(c) Localities can start to correct for historic economic and racial exclusion in single-family zones by opening up these neighborhoods to more diverse housing types, including accessory dwelling units, that provide lower cost homes. Increasing housing options in expensive, high-opportunity neighborhoods will give more

HB 1337

1 families access to schools, parks, and other public amenities 2 otherwise accessible to only the wealthy.

3 (d) Accessory dwelling units are frequently rented below market
4 rate, providing additional affordable housing options for renters.

(e) Accessory dwelling units can also help to provide housing for 5 6 very low-income households. More than 10 percent of accessory dwelling units in some areas are occupied by tenants who pay no rent 7 at all; among these tenants are grandparents, adult children, family 8 members with disabilities, friends going through life transitions, 9 and community members in need. Accessory dwelling units meet the 10 needs of these people who might otherwise require subsidized housing 11 12 space and resources.

(f) Accessory dwelling units can meet the needs of Washington's growing senior population, making it possible for this population to age in their communities by offering senior-friendly housing, which prioritizes physical accessibility, in walkable communities near amenities essential to successful aging in place, including transit and grocery stores, without requiring costly renovations of existing housing stock.

20 (g) Homeowners who add an accessory dwelling unit may benefit 21 from added income and an increased sense of security.

(h) Encouraging localities to adopt measures that spur accessory dwelling unit construction would create jobs as the state recovers from the COVID-19 economic shutdown.

(i) Accessory dwelling units provide environmental benefits. On
 average they are more energy efficient than single-detached houses,
 and they incentivize adaptive reuse of existing homes and materials.

(j) Siting accessory dwelling units near transit hubs, employment centers, and public amenities can help to reduce greenhouse gas emissions by increasing walkability, shortening household commutes, and curtailing sprawl.

32 (2) The legislature intends to promote and encourage the creation 33 of accessory dwelling units as a means to address the need for 34 additional affordable housing options.

35 (3) The legislature intends to accelerate production of accessory 36 dwelling units by offering local governments the equivalent of the 37 state's portion of sales tax generated by accessory dwelling unit 38 construction in their jurisdiction, if they adopt state-approved 39 model code requirements for accessory dwelling units. This program will be assisted by the department of commerce, which will verify the
 amount of new accessory dwelling unit construction that has occurred.
